Dear Colleagues,

It is my honor and pleasure to invite you to participate in Bioavailability 2010. This year, the conference will be held from September 26 - 30- 2010, in Pacific Grove, California.

The conference aims to present and validate results of recent scientific research in relation to bioavailability of micronutrients. We have organized a series of talks from distinguished scientists and speakers focusing on the following themes:

- The role of bioavailability when setting recommendations
- Genetic/ individual influences on bioavailability
- Biofortification
- Bioavailability – applied studies and advances in methodology

This will be an excellent venue to discuss current and developing issues, findings, methods, and approaches that have proven successful in the field of bioavailability. Moreover, we are soliciting oral presentations from young investigators. Submitted abstracts will be reviewed by the Scientific Committee and will be published in the Journal of Vitamin and Nutrition Research.

For your convenience, information on abstract submission, accommodation arrangements, conference program and fees are available at our website:

<http://bioavailability2010.ucdavis.edu>

Attached is the registration form if you are interested to attend.

We hope that you will join us in making this conference a success. I formally invite you to be a part of Bioavailability 2010.

Sincerely,
